SUN & WEATHER PROTECTION
PERGOLA / TERRACEawnings | PAVILIONS
INNOVATIVE SUN AND WEATHER PROTECTION SINCE 1964
FOUNDED IN 1964
What started 50 years ago with considerable courage in an old cider cellar has today become a leading, global manufacturer of sun and weather protection solutions with production facilities in Switzerland.

QUALITY & SAFETY
The Gremaud family guarantees you durable, tailored products in uncompromising quality. We achieve this through the consistent use of high-quality materials, modern and environmentally sustainable production processes as well as continuous safety inspections.

FUNCTIONALITY & TECHNOLOGY
Our many years of experience and close cooperation with specialists, architects, planners and dealers enable us to develop innovative products that meet the highest demands. – Yesterday, today and tomorrow.

AESTHETICS & DESIGN
Emotions turn our daily routine into an adventure. The influence of colours and forms play a central role in this. Therefore, STOBAG awnings are customised for you.
THE SPACIOUS SOLUTION
PERGOLA/TERRACE AWNINGS

Terrace awnings offer a lot of benefits for fresh air enthusiasts. Frontal support makes the systems very stable. With sufficient incline and fitted with a waterproof cover they not only provide shade but are also ideal for use in the rain. There are a number of product solutions to choose from depending on the particular application, desired dimensions and aesthetic appeal. Pergola awnings, for example, give your terrace a mediterranean feel. Terrace awnings, which combine horizontal and vertical shading in one system, are also available. See page 6
THE MODERN
PAVILIONS

The multi-purpose terrace pavilions from STOBAG offer not only protection from heat, UV radiation and rain, but also create a very special peaceful place for relaxation immersed in nature or on the terrace.

The different installation versions, as a free-standing pavilion or fixed to an outer wall, allow your preferences to be perfectly matched to your circumstances. The Softtop variant with polyester fabric in a folded look creates a mediterranean ambience, while the Hardtop variant with lamellas offers a modern design. See page 8
Make your terrace into a very private holiday haven! With a pergola or terrace awning from STOBAG you are not only protected from damaging UV radiation, the sun’s heat and rain, you can also add a Mediterranean flair to your terrace – ideal for relaxation and enjoyment!

The horizontal shading provides optimal protection and, depending on design, is also available in a folded look. With perpendicular shading you are perfectly protected from the sun, wind and prying eyes.

Optional side and front glazing, which protects you from wind and rain without dimming the view, is also available, so you can enjoy your terrace even in poor weather.

The corrosion-resistant aluminium construction ensures rigidity and a motor installed as standard for ease of handling.

I.S.L.A. FLOOR SYSTEM
The self-supporting floor system with weather-resistant aluminium deck boards in imitation deck board wood can be optionally extended as a floor.

RAIN RUN-OFF
Thanks to the integrated rain run-off and the use of the dirt-repellent polyester fabric RESISTANT (fire protection class B1), the system can also be used without worries when it is raining.

CONSTANT FABRIC TENSIONING
Integrated gas-filled cylinders ensure the cover remains taut in any position.
COUPLED SYSTEMS
Large shading systems with up to 23° projection and only two frontal supports can be coupled as often as required.

PAVILIONS ON THE FACADE
Free-standing pavilions, whether with folding awning or lamella roof, can also be fastened to the facade. See page 8

IMPRESSIONS

MELANO TP7100 Softtop

BAVONA TP6100 Softtop
PAVILIONS

BAVONA | MELANO

Elegant terrace pavilion with modular roof system and convenient expansion options. From spring to autumn, the new Outdoor Living Pavilion creates a natural living space on the terrace or in the garden. Relax in the fresh air and enjoy the comfort of reliable sun and weather protection and experience the interplay of light and shade. The design of the free-standing pavilion impresses through its cubic design style and the elegantly integrated technology. The pavilions are available with rotating aluminium lamellas (Hardtop) or as a robust folding awning (Softtop). Each STOBAG pavilion is tailor-made, can be colour-matched to your individual requirements and equipped with various options.

Thanks to numerous mounting variants and various convenience options, such as sliding glazed glass panels, side shading or aluminium floor system, the uses of the pavilions are virtually limitless.

MEDITERRANEAN

The roof system variants with integrated folding awning made from polyester fabric have compact dimensions and provide high stability in wind thanks to the STOBAG patented scissor technology.

BIO-CLIMATIC EFFECT

The roof system variants with inclining weather-resistant aluminium lamellas permit natural air circulation.

MAXIMUM INTEGRATION

The optional perpendicular awnings and water channels are integrated in the existing construction.
I.S.L.A. FLOOR SYSTEM
The self-supporting floor system with weather-resistant aluminium deck boards in imitation wood can be optionally extended as a floor.

ASSEMBLY VARIANTS
Free-standing or mounted on an outside wall enables the pavilions to be perfectly matched to existing structures.
AWNING ACCESSORIES & OPTIONS
More individuality and convenience with additional options.

INSPIRATION & HARMONY
FRAME COLOURS
STOBAG profiles and frame components are powder-coated to ensure you can enjoy your sun and weather protection systems in the years ahead as much as on the day they arrived. This environmentally-friendly process offers effective protection for the structure against environmental and weather factors. The maximum possible degree of colour uniformity in an endless array is guaranteed by the highest quality standards.

10 Classic and hundreds of Rainbow colours (RAL and NCS) offers a choice to fulfil every wish

COLOURS & EMOTIONS
COVER DESIGNS
By choosing a fabric from the STOBAG Collection from European quality weaving mills, you have opted for a top quality high-tech textile product. Let yourself be inspired and enticed by our extensive colour range and the special characteristics of our UV tested acrylic fabrics.

BRILLIANT | UNI | BLOCK | FANTASY
Blindingly brilliant. The high-tech Lumera CBA fibres in the Brilliant range have been even more closely weaved together and thanks to a flatter surface instantly offer more benefits. Compared to conventional Classic acrylic fabrics, the fabrics from our Brilliant range are proven to be particularly dirt and water resistant. STOBAG Plus: Bright and intensive colours bringing you a unique brilliance.

COMFORT & AMBIENCE
AUTOMATIONS AND CONTROLS
We offer you exactly the comfort that you want from your individual awning system, with simple sun, wind and rain sensors creating a natural environmentally controlled air conditioning system. Whether you extend an awning via remote control or want to control the façade and conservatory shading by smartphone: Our reliable automatic systems master any situation

The actually trend leads to modern are finely structured colours.

Brilliant high-tech fabrics for more «joy of colour».
